## BOOK RECEIVED

*An Atlas of Vulval Disease*, 2nd ed. by M. Leibowitch, R. Staughton, S. Neill, S. Barton and R. Marwood, 1997. 196 pages. ISBN 1-85317-431-9. Hardcover. Price £49.95. Martin Dunitz Publ. London.

This new edition has been updated with new excellent colour illustrations and expanded with sections such as treatment, plastic repair, malignant disease and patient information. The clear and didactic writing makes this book very valuable in clinical practice where patients with vulvar problems may appear.

*Strategies for Immunointerventions in Dermatology* edited by Günter Burg and Reinhard G. Dummer, 1997. 418 pages, 35

Figures. ISBN 3-540-62680-8. Hardcover. Price US\$ 129. Springer Verlag, Berlin.

Fifty-two experts have contributed to this volume containing chapters on basic aspects of immunointerventions in dermatology, various immunosuppressive and antiinflammatory compounds, immunostimulatory substances, and vaccination therapies. There are also clinical aspects on various dermatoses including also the common disorders as contact dermatitis, atopic dermatitis, psoriasis, bullous diseases, vasculitis and viral infections as well as rheumatic diseases, neoplasms and malignant melanoma. After each chapter there are many references up to 1996. The book is of great value to doctors taking care of patients with these disorders when immunotherapy can be needed.
