

ACTA DERMATO- VENEREOLOGICA

NEWSLETTER (August 2020)

Editors' Choice in August 2020 in Acta Dermato-Venereologica:

Impact of the COVID-19 Pandemic on Chronic Inflammatory Dermatoses: Mixed Messages Regarding the Dermatologist's Point of View and the Patient's Concerns

Anne-Claire Fougerousse, François Maccari, Ziad Reguiat, Edouard Begon, Valérie Pallure, Charles Taïeb, Céline Girard, Laure Mery-Bossard; for the GEM Resopso Association

Anne-Claire Fougerousse

Comments by the authors:

Reso is a network of physicians, mostly dermatologists, specialized in chronic inflammatory dermatosis. We wanted to perform this study in order to evaluate the perception of the COVID-19 pandemic by dermatologists and patients suffering from chronic inflammatory dermatosis. This unique phenomenon has led to sudden and major modifications in the way physicians manage their patients, rapid development of online consultations, concerns about safety of immunomodulatory and biological treatments, needs for more relevant information for the patients, etc. Strategies for providing updated information have been digital including webinars for patients, information letters for dermatologists, etc. [Read more](#)
