Editors’ Choice in November 2020 in Acta Dermato-Venereologica:

Efficacy of Biologics Targeting Tumour Necrosis Factor-alpha, Interleukin-17 -12/23, -23 and Small Molecules Targeting JAK and PDE4 in the Treatment of Nail Psoriasis: A Network Meta-analysis
Júlia Szebényi, Noémi Gede, Péter Hegyi, Zsolt Szakács, Margit Solymár, Bálnint Erőss, András Garami, Kornélia Farkas, Dezső Csupor, Rolland Gyulai

Comments by the authors:
The introduction of biologics and small molecules has revolutionized the treatment of psoriasis. This paper aimed to determine the comparative efficacy of biologics and small molecules in nail psoriasis, a ‘difficult-to-treat’ condition. To synthesize evidence from already published data, we performed a network meta-analyses. Based on 17 randomized clinical trials, IL-17 inhibitor ixekizumab seems to be the best treatment option, whereas the IL-12/23 inhibitor ustekinumab and the IL-23 inhibitor guselkumab are less effective. We hope this paper can aid dermatologists in choosing the best therapeutic option for nail psoriasis and will inspire further research on the long-term efficacy of these treatments. Read more

Further highlights of this month:
Concordance Between Physician-rated and Caregiver-perceived Disease Severity in Children with Atopic Dermatitis: A Cross-sectional Study. Read more

All articles published in November 2020 in Acta Dermato-Venereologica
The 100-year anniversary issue is now available in print

In celebration of Acta Dermato-Venereologica’s 100-year anniversary we are now happy to offer our readers a book issue comprising 390 colored pages. Entitled “Frontiers in Dermatology and Venereology” this issue includes the full series of thematic issues published online earlier this year, and involving many world-leading scientists as authors:

- Itch and pruritic disorders
- Psoriasis
- Blistering skin disorders
- Genodermatosis
- Cutaneous and genital infections
- Skin Malignancies
- Atopic Dermatitis

Please click here to check out the issue online, and the printed issue is available for purchase at self-cost (EUR25, including postage) while supplies last. To ensure you get your copy, please get in touch with us already today and make your order at https://medicaljournals.se/actadv100Theme/registration.php

The 2019 impact factor:

IF: 4.016

ActaDV has climbed from #13 to #7 in the ranking of dermato-venereological journals
Among the Open Access journals it is #1!
